Our Vision

Our vision is to ignite human greatness, unlocking the inner genius so that every child brings his or her mission and talent to the world. We aim to set a benchmark in child friendly education to provide education that will value aspiration over ambition, spirituality over religion, wisdom over knowledge, a united world over a divided one, and individual creative thoughts over every sophistication of technology. These thoughts are inculcated in the students through the curriculum.

OUR MISSION

Sculpturing a being of excellence and unmatched profile by nurturing the holistic development in order to seek a nation and community with a better perspective and responsible collective behaviour, that are established on morals, values and high ethical standards

WHERE KNOWLEDGE AND FUN COME ALONG...

Embellishing the world of children with the colourful experience and enlightening their thoughts profound cognition and insight is what Assisi Vidyaniketan Public School had done throughout. Carving out masterminds from an early childhood and cultivating the responsible individuals who are an asset to the community, the students of Assisi had engrossed pivotal positions in the world embarking the boundless opportunity that they had encountered. Scrupulously constructed curriculum of the school had incorporated fun and frolic along with the solemn academic partaking. Chiseling out their personality by imparting a habit of curiosity, intellectual desire and non-scholastic activity and embossing them with a high emotional and spiritual quotient, the school takes an extra-care in the overall development of the students.

*"You may give your love
but not your thoughts,
For they have their own thoughts"
Khalil Gibran*
